

Everjet 400 Premium

Inkjet Matt

Description

Everjet 400 Premium is made entirely from recycled fibres. This versatile paper, with a natural whiteness of 135 CIE, is particularly suited to transactional printing and promotional documents. The slitting quality of this paper is excellent, and its precise dimensional accuracy means that it runs reliably through the machines for maximum productivity. Ideal for black and colour prints, for jobs with intermediate ink coverage.

Applications

Transactional / Publishing / Direct marketing
