

EARLY LEARNING

Strong points

Produced on Clairefontaine's recycling site: Everbal, the papers of the Early Learning range are produced from 100 % recycled fibres: salvaged cellulose fibres. Everbal, being concerned about the environment, has elaborated an original recycling process without de-inking, without optical brighteners, without chlorine treatment.

The Early Learning range is declined in 23 vivid colours, yellow, azur blue, fuchsia ... in reels and in sheets.

This bulky paper is a true incentive to create : drawing, cutting out, all art forms in general. Be inspired by the fanciful names: banana, chocolate, moos green.

With its Blue Angel, ISO 9001 and ISO 14001 certifications ; this truly ecological paper allows you to express your creativity freely whilst being coherent with Nature.
