

Brut Bright

Rebecca Rock

Description

An exceptional touch

Brut Bright reinvents the surface of offset printing papers. A High roughness and an exceptional bulk are the two main landmark characteristics of this unique medium. **Brut Bright** offers both a very rough touch and a perfect printability. These two properties, which are in principle opposite, are obtained thanks to the exclusive treatment that Clairefontaine applies to its surface. High whiteness of 170 CIE for brilliant print contrast. Available from 80 to 400 gsm.
