

Silk Bright

Rebecca **Satin**

Description

The advantages of an uncoated and a coated paper combined for an exceptional paper. Silk Bright offers the elegance of a natural paper with an exclusive silky touch and a pleasant and sensual surface reminiscent of silk. The print quality and the ink brilliance match the ones of a coated paper, with a particularly excellent colour reproduction. Ultra-white (167 CIE) with an extremely homogenous formation, it guarantees precision of details and a high contrast. This paper has taken the best of both worlds, Silk Bright lends itself well to embossing, scoring and stamping. Available from 90 to 350 gsm. Areas of use: business reports, high quality brochures and advertising, business cards, compliment cards.
