

PP film matt 180 μ

Papiers **Plotters**

Description

PP matt film 180 μ is a matt, tear-resistant polypropylene film, recommended for VISCOM applications, for indoor and/or outdoor use (short term).

With a thickness of 180 μ m, this film is very rigid and easy to handle. Its matt surface prevents annoying reflections and allows for brilliant printing results. Compatible with dye, pigmented or latex inks, PP matt film 180 μ offers water and scratch resistant prints.

Applications

Black, White and Colour. / Advertising, displays, banners & roll-ups. / Indoor, Outdoor (short term)
