UNE FAMILLE, UNE HISTOIRE

ONE STORY, ONE FAMILY

Les Papeteries de Clairefontaine tiennent leur ADN d'un homme, Charles Nusse (1901-1983), qui incarne presque l'histoire du papier à lui seul.

Arrière-petit-fils de Jean-Michel Bichelberger - fondateur des Papeteries de Clairefontaine il y a un siècle et demi (1858) - il impose une ligne faite de conviction - produire des papiers de qualité - et d'intuition - utiliser de nouveaux outils pour conquérir un public. Une excellente maîtrise de l'ingénierie et une redoutable connaissance du marché s'affirment par la suite comme les deux fers de lance de la marque.

Cette ligne forte, il la transmet à l'un de ses fils, Jean-Marie Nusse qui, pendant cinq décennies, forgera la réputation de Clairefontaine. Aujourd'hui, c'est à son petit-fils Frédéric Nusse qu'il revient de poursuivre ce legs avec la même passion que celle de ses prédécesseurs.

Papeteries de Clairefontaine got their DNA from one man, Charles Nusse (1901-1983).

Charles Nusse represents almost solely the History of Paper: Great-grandson of Jean-Michel Bichelberger - founder of Papeteries de Clairefontaine half a century ago (1858) - he imposed a line made of conviction - to produce quality papers with intuition and foresight - to use new tools to conquer an audience. Excellent engineering skills and a formidable knowledge of the market later became the spearheads of the Clairefontaine brand.

He passed on this strong line to one of his sons, Jean-Marie Nusse, who for five decades will forge Clairefontaine's reputation. Today, it is up to one of his grandsons: Frédéric Nusse to continue this legacy with the same passion as his predecessors.

Charles Nusse 1950, Papeteries de Clairefontaine Etival.

FABRIQUER LE PAPIER DE DEMAIN

MAKING THE PAPER FOR TOMORROW

Laissons parler les chiffres.

Chaque année, à Clairefontaine dans les Vosges en France, berceau de l'entreprise, 330 000 palettes de papiers certifiés FSC ou PEFC sont expédiées partout en Europe.

À cette force première, trois autres sites externes apportent chacun une valeur ajoutée. La Papeterie de Mandeuve dans le Doubs, forte d'une histoire commencée en 1871, maîtrise la fabrication d'une carte 100% cellulose, en monojet, avec des grammages qui varient de 100 à 600 g/m².

Aux Pays-Bas, l'usine de Schut Papier (1618) apporte avec elle quatre siècles de savoir-faire dans les domaines des papiers spéciaux et Beaux Arts.

En 1994, l'usine d'Everbal en région Champagne a consolidé cette structure. Plus qu'une acquisition, Everbal concrétise un projet ambitieux, la fabrication de papiers recyclés. Usine fonctionnant à l'énergie biomasse, son empreinte carbone ambitionne d'être la plus réduite possible (proche de zéro). La pérennité des Papeteries de Clairefontaine s'adosse enfin à la force du groupe Exacompta Clairefontaine, groupe européen, coté en bourse, leader pour les produits de classement et la papeterie de bureau.

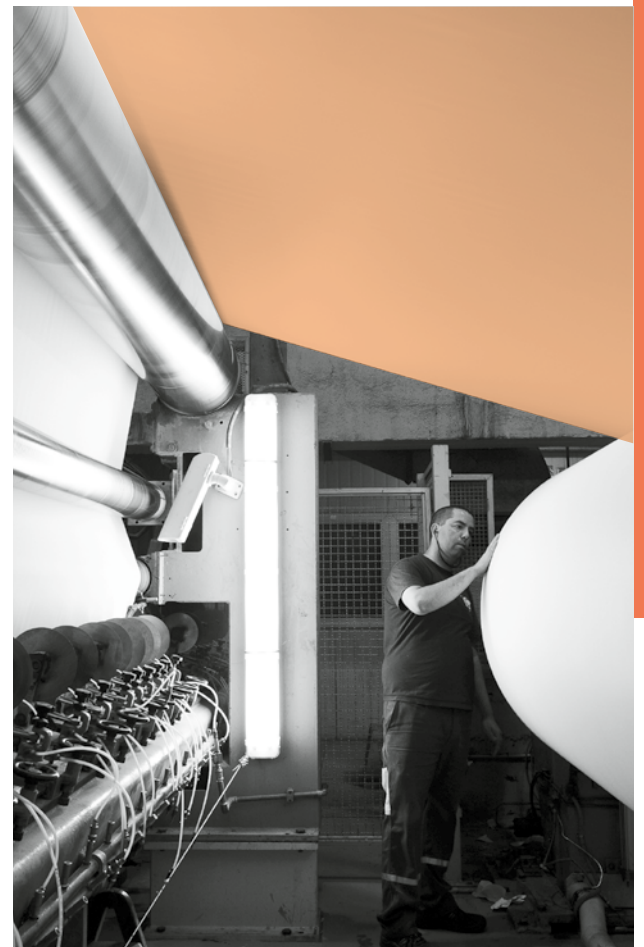

Let our numbers speak for themselves.

Every year, at Clairefontaine in the Vosges, France, the birthplace of the company, 330 000 pallets of FSC or PEFC certified paper are despatched throughout Europe.

In addition to this primary strength, three other external sites each bring added value. Papeterie de Mandeuve in the Doubs, with a history that began in 1871, masters the manufacture of 100% cellulose cardboard, in single-jet, with substances that vary from 100 to 600 gsm. The Schut Papier factory in the Netherlands (1618) brings four centuries of know-how in the fields of speciality and Fine Arts papers.

In 1994, the Everbal mill in the Champagne region consolidated this structure. Better than an addition, Everbal carries out an ambitious project, the manufacture of recycled papers. With its biomass-powered plant, its carbon footprint aims to be as low as possible (close to zero).

The long-term future of Papeteries de Clairefontaine is backed up by the power of Exacompta Clairefontaine, a European group listed on the stock exchange and a leader in filing products and office stationery.

Bobineuse, Papeteries de Clairefontaine Etival.

Qu'est-ce qu'un beau papier ?

Qu'est-ce qu'une belle impression ?

À ces deux questions, Clairefontaine répond avec la même compétence. Un « beau papier », cela signifie une esthétique, une main, un rapport à la matière qui crée un lien, incarne la substance d'un projet. Une « belle impression », c'est un papier efficace qui pour l'imprimeur donnera contraste, brillance, uniformité, supportera Pantone, fer à dorer, vernis. Toute la notoriété des papiers Clairefontaine s'exprime dans ces supports non couchés, haut de gamme et tous certifiés FSC® La parfaite maîtrise de leur production garantit une impression sans écueils. Profondeur et couleurs ne souffrent d'aucune altération.

Clairefontaine destine ses gammes graphiques aux imprimeurs, aux designers, aux éditeurs, aux agences de communication, aux "créateurs fous et culottés", au monde vaste de l'impression, de la création et de l'édition, à celles et ceux qui recherchent un support haut de gamme pour affirmer une idée, un concept.

Pour tous ces professionnels, Clairefontaine propose des papiers graphiques à la hauteur de leur ambition au sein de onze gammes : Rebecca Cross - Rebecca Rock - Rebecca Bulk - Rebecca Satin - Rebecca Sublim - Rebecca Life - Rebecca Studio - Rebecca Thin - Rebecca High Speed Inkjet - Rebecca Color.

What is a beautiful paper?

What is a beautiful print?

Clairefontaine answers these two questions with the same competence. A «beautiful paper» means an aesthetic relationship with bulk that creates a bond, which embodies the material of a project. A «beautiful print» is an effective paper that for the printer, will give contrast, brilliance and uniformity, will support all Pantones, gold dust and varnish.

All the authority of Clairefontaine papers is expressed in these uncoated, top-of-the-range FSC and ECF certified uncoated papers. The Operational Excellence of the manufacturing process avoids the printing pitfalls. Depth and colours do not suffer any alteration.

Clairefontaine's graphic ranges are aimed at printers, designers, publishers, communication agencies, audacious and creative strategists, the vast world of printing, creation and publishing, and those looking for a top-of-the-range medium to assert an idea or a concept.

For them Clairefontaine offers graphic papers which match their ambition in eleven ranges: Rebecca Cross - Rebecca Rock - Rebecca Bulk - Rebecca Satin - Rebecca Sublim - Rebecca Life - Rebecca Studio - Rebecca Thin - Rebecca High Speed Inkjet - Rebecca Color.

YOUR PERFECT DESIGN PARTNER

YOUR PERFECT DESIGN PARTNER

L'ESPRIT REBECCA

REBECCA SPIRIT

Trois mots définissent nos gammes :
expertise, esthétique, efficacité.

Nos papiers graphiques reçoivent tout notre savoir-faire, toute notre expertise en matière de traitement de surface. Nous avons pour ambition qu'ils répondent sans failles à un degré d'exigence élevé afin de former un support parfait. Enfin, ils se doivent d'être d'une machinabilité optimale pour les imprimeurs.

Ces gammes incarnent notre idée d'un papier graphique, son esprit.

En hommage au logo de notre marque, nous les avons baptisés Rebecca, du nom de cette figure féminine et bienveillante du livre de la Genèse qui accompagne l'histoire de Clairefontaine.

Three words define our ranges:
expertise, excellence, efficiency.

Our graphic papers have received all our know-how, all our expertise in surface treatment. Our ambition is that they meet a high level of requirements without fail in order to form a perfect medium. Finally, they must be of optimum runnability for printers.

These ranges exemplify our idea of a graphic paper, its spirit. As a tribute to our brand logo, we have named the range Rebecca, after the feminine and benevolent figure from the Book of Genesis that accompanies the history of Clairefontaine.

Rebecca Cross

L'OUTIL DE TOUTES VOS ENVIES

Quel meilleur outil que celui qui peut répondre vite et bien aux utilisations les plus nombreuses ?

Rebecca Cross a été conçue dans ce but. Couteau suisse de nos gammes, son domaine d'application couvre aussi bien les documents transactionnels, les brochures que les livres. Les graphistes pourront composer aisément en couleurs comme en noir et blanc leurs créations que l'impression respectera à la lettre.

THE TOOL OF ALL YOUR DESIRES

What better tool than the one that can quickly and perfectly respond to the most numerous uses?

Rebecca Cross was designed with this in mind. As the Swiss Army Knife from our range, its field of application covers transactional documents, brochures and books. Graphic designers will be able to easily compose in colour as well as in black and white creations that the printing will strictly respect.

Rebecca Rock

LA CRÉATION SANS LIMITE

Choisir la gamme Rebecca Rock, c'est choisir un papier qui est, avant tout, une prouesse technique.

Audacieux, son toucher rugueux n'entame en rien son imprimabilité. Cette performance associée à une blancheur élevée le rendent particulièrement adapté à des créations de marketing direct.

CREATION WITHOUT LIMITS

Choosing the Rebecca Rock range means choosing a paper that is, above all, a technical feat.

Bold, its rough touch does not detract from its printability.

This performance combined with a high whiteness makes it particularly suitable for direct marketing creations.

REBECCA SPIRIT

10

Rebecca Bulk

UN CHALLENGER OPTIMUM

La gamme Bulk c'est d'abord un papier bouffant idéal pour les livres tirés en petite comme en grandes séries.

Sa main assure une tenue irréprochable. Son opacité et sa régularité témoignent de sa réussite. Il a été pensé pour la presse numérique - laser ou jet d'encre - comme pour la rotative offset.

AN OPTIMUM CHALLENGER

The Bulk range is first of all an ideal, bulky paper for books printed in small or large quantities.

Its bulk ensures a perfect hold. Its opacity and regularity testify to its success. It has been designed for the digital press - laser or inkjet - as well as for the web offset press.

Rebecca Satin

LA PROMESSE DU TOUCHER

Toucher, regarder, sentir parfois un papier avant de le choisir.

La gamme Rebecca Satin s'adresse à la main de l'homme et lui offre une intimité immédiate. Par ailleurs, la surface soyeuse et mate assure à la vue le meilleur confort de lecture possible. Les différents traitements - gaufrage, rainage, estampage - souligneront une identité forte selon la destination finale (couverture, carte de visite).

THE PROMISE OF TOUCH

Touch, look, sometimes feel a paper before choosing it.

The Rebecca Satin range addresses the human's hand and offers immediate intimacy. Similarly, the silky and matt surface ensures the best possible reading comfort. The different treatments - embossing, creasing, stamping - will underline a strong identity depending on the end use (cover, business card).

Rebecca Sublim

LE HAUT DE GAMME ÉDITORIAL

Sublim offre une redoutable alternative aux papiers couchés ! La gamme Rebecca Sublim assure pour le monde de l'illustré un rendu parfait, sans images enterrées. Pour l'imprimeur c'est la certitude d'une impression sans bavure, la possibilité d'utiliser une gamme de traitements variés, de travailler l'éclat et la blancheur. Pour l'agence de communication, c'est un catalogue dont le blanc pur est idéal pour les livrets ou le monde du luxe.

TOP OF THE RANGE FOR EDITION

Sublim offers a formidable alternative to coated papers! The Rebecca Sublim range provides the world of illustration with a perfect rendering, without blurred images. For the printer, it is a warranty of a neat printing, four-colour or offset process, the possibility to use a range of different treatments to work on brightness and whiteness. For the communication agency, it is a catalogue where a pure white is ideal for booklets or the world of luxury goods.

Rebecca Life

LE GREENPAPER DE DEMAIN

Les utilisateurs qui font le choix de la gamme Rebecca Life choisissent un papier issu de 100% de fibres de récupération. Ils ne transigent pas avec la volonté d'un geste éco-responsable, d'une inscription dans une économie circulaire. Clairefontaine répond à cet engagement sans céder à la qualité qui fait la réputation de la marque. La gamme Rebecca Life dispose ainsi des mêmes propriétés d'impression que ses papiers fabriqués avec des fibres vierges.

THE GREENPAPER OF TOMORROW

Users who choose the Rebecca Life range choose a paper made from 100% recovered fibres. They do not compromise with the desire for an eco-responsible mindset but an inscription in a circular economy. Clairefontaine responds to this commitment without compromising the quality that has made the brand's reputation. The Rebecca Life range thus has the same printing properties as its papers made from virgin fibres.

Rebecca Studio

UNE DIMENSION TACTILE POUR VOS CRÉATIONS

Rebecca Studio fait la part belle aux papiers d'édition, plaçant la créativité au cœur de chaque projet et véhiculant le concept d'un espace où les idées prennent vie et où l'expression artistique est encouragée et célébrée. Chaque texture, chaque finition, offre profondeur et sobriété au projet, ainsi, le papier devient la toile où se joue la magie de la lumière et de la composition, transformant un simple texte ou image en œuvre d'art.

A TOUCH FOR YOUR CREATIONS

Rebecca Studio is all about paper, placing creativity at the heart of every project and conveying the concept of a space where ideas come to life and where artistic expression is encouraged and celebrated. Each texture, each finish, offers depth and sobriety to the project so that the paper becomes the canvas where the magic of light and composition is played out, transforming a simple text or image into a work of art.

Rebecca Thin L'ÉLOGE DE LA LÉGÈRETÉ

Réduire le poids des documents, trouver un support mince permettant un ouvrage à forte pagination, utiliser un papier pour les pliages multiples d'une notice, Rebecca Thin vous permet tout cela.
Gamme de 40 à 70g/m² adaptée à l'impression offset, laser ou jet d'encre.

THE PRAISE OF LIGHTNESS

Reducing the weight of documents, finding a thin support for a high-pagination book, finding a paper for multiple folds of a leaflet, Rebecca Thin allows you to do all of this.
Range from 40 to 70 gsm suitable for offset, laser or inkjet printing.

Rebecca High Speed Inkjet UN CONCENTRÉ DE SAVOIR-FAIRE

La gamme High Speed Inkjet a été spécifiquement développée pour cette technologie d'impression et est à même de couvrir le large spectre des demandes clients. Que ce soient pour des documents texte, des papiers fins pour notice, des papiers bouffants d'édition ou des supports destinés à une forte couverture d'encre, vous trouverez forcément la réponse à tous vos besoins d'impression.

THE PRAISE OF LIGHTNESS

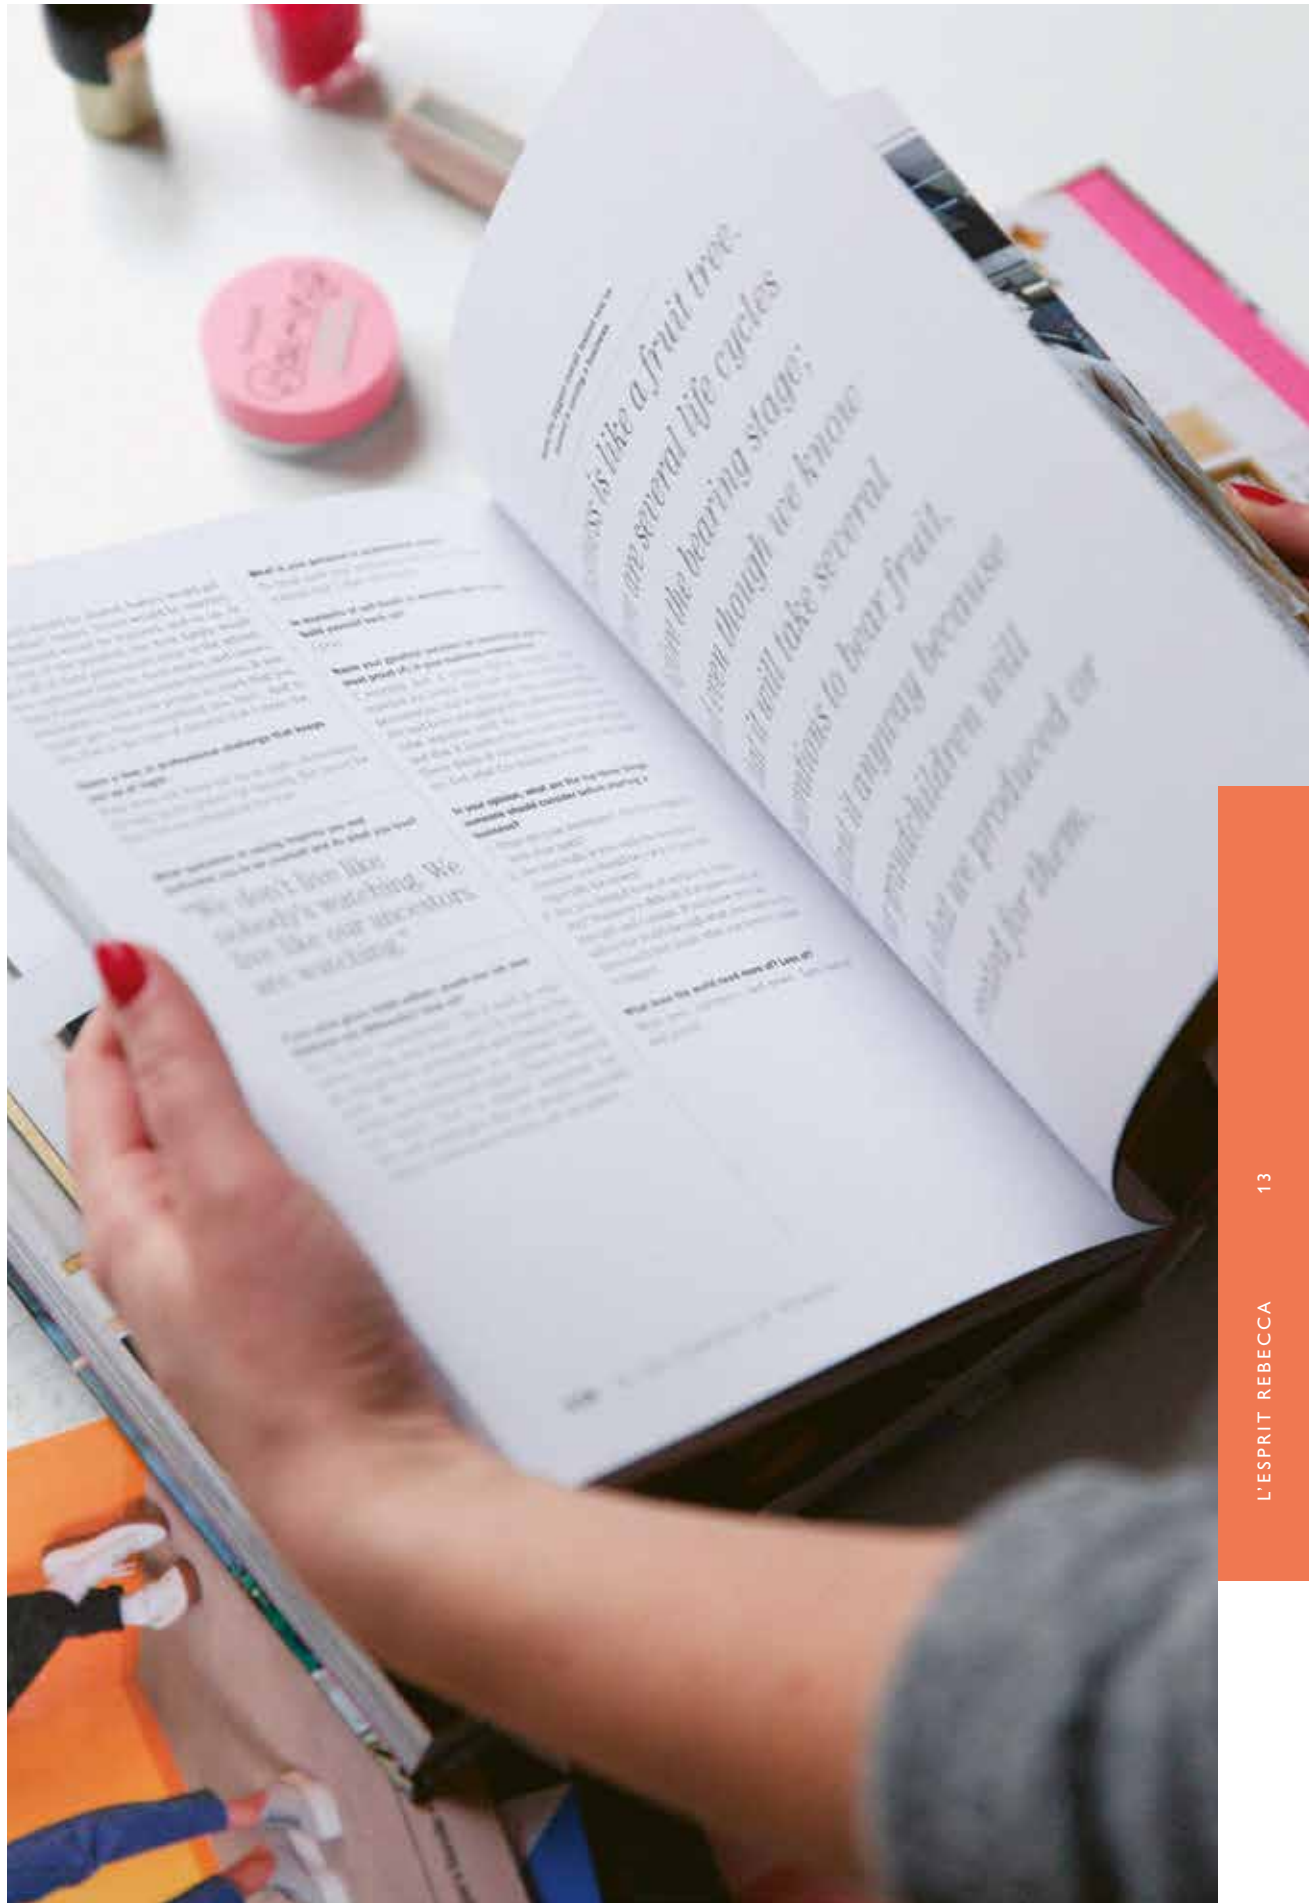

The High-Speed Inkjet range consists of papers specifically developed for this printing technology and capable of covering the broad spectrum of customer requirements. Whether it's for text documents, thin papers for leaflets, bulky publishing papers or media designed for high ink coverage, you're bound to find the answer to all your printing needs.

Rebecca Color LIBÉREZ VOTRE IMAGINATION

Créez une émotion en combinant des couleurs, en jouant des contrastes. Rebecca Color ce sont 38 teintes, 8 grammages pour donner libre cours à votre imagination.
Pastels très doux, intensives flamboyantes, noir ou fluorescentes, vous trouverez parmi toutes ces références les clés d'une communication personnalisée.
Utilisable en offset ou impression numérique.
Existe en fibres vierges ou recyclées.

FREE YOUR IMAGINATION

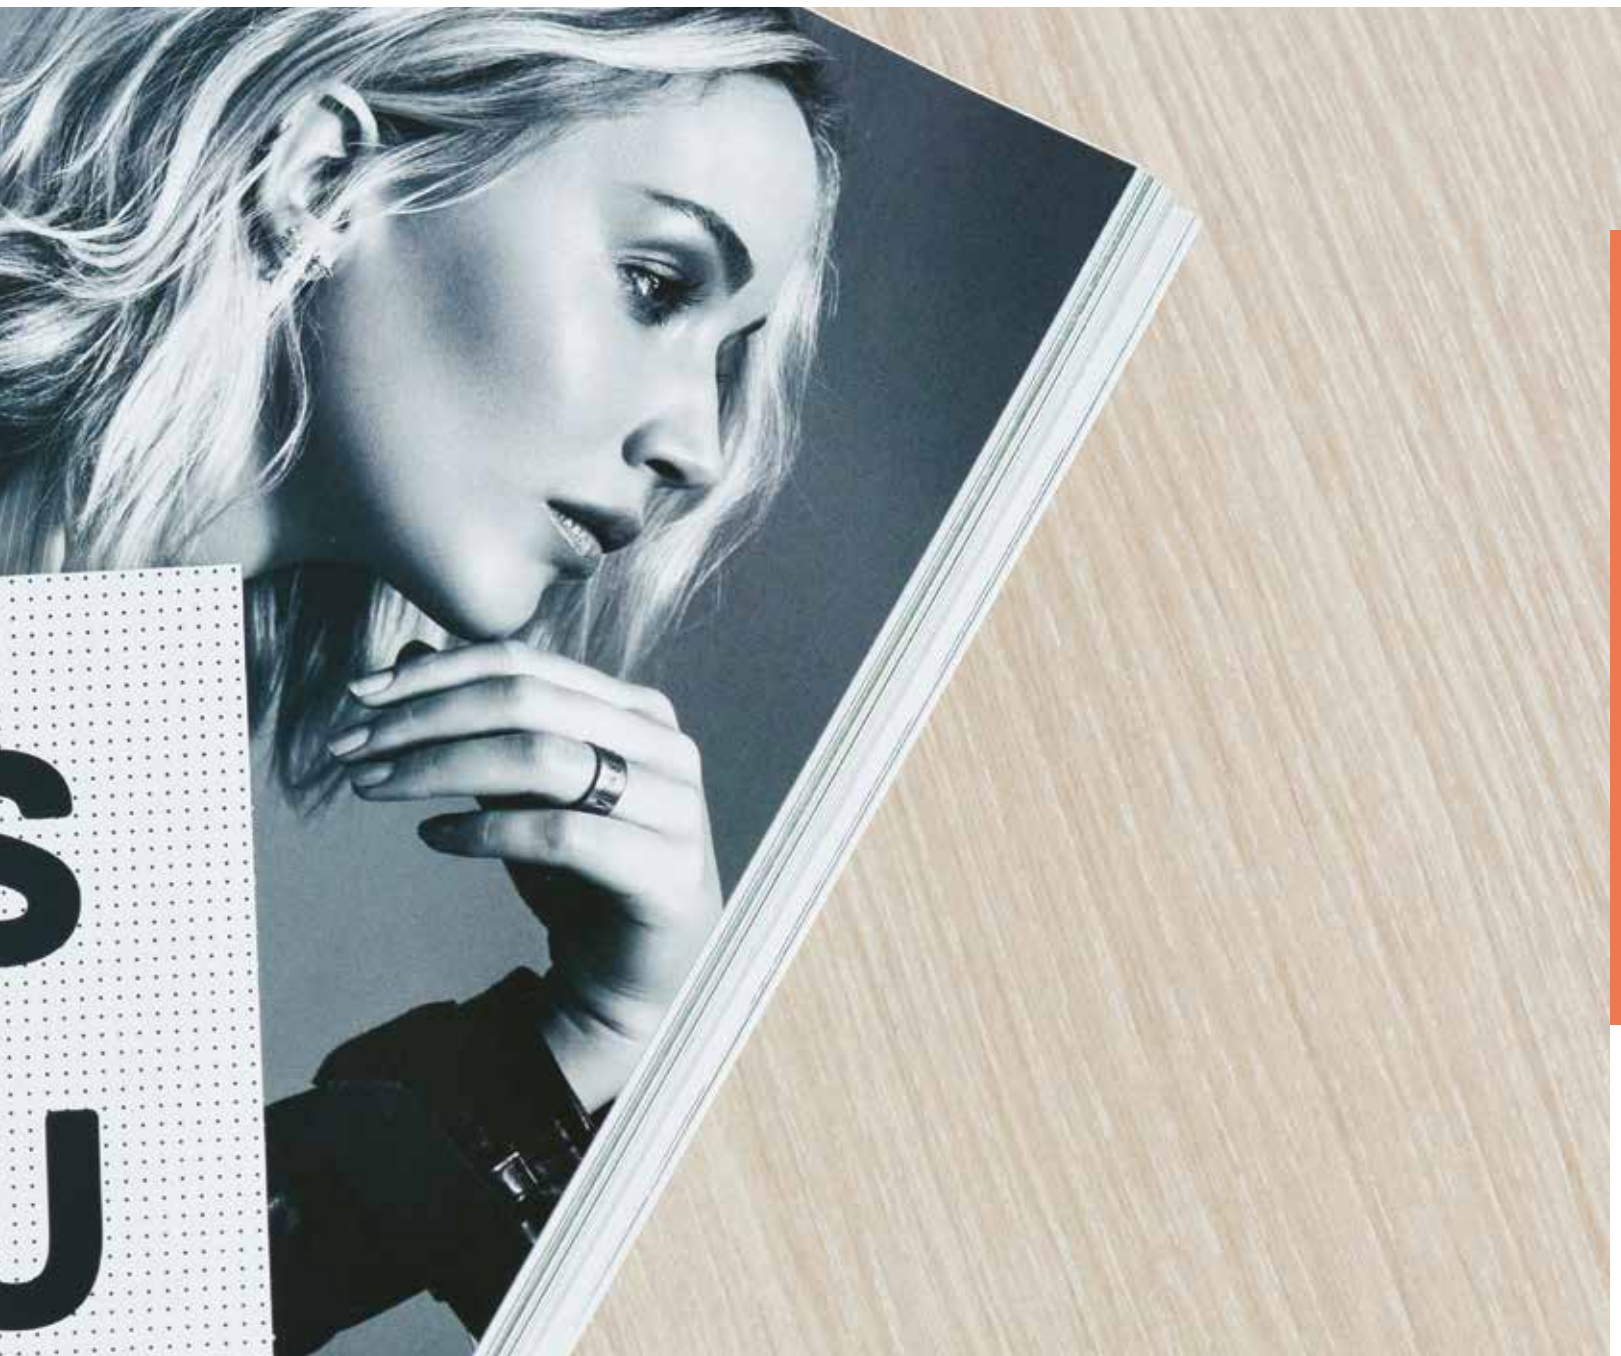

Create an emotion by combining colours, playing with contrasts. Rebecca Color comprises 38 shades, 8 substances to give free rein to your imagination. Very soft pastels, intensive flamboyant, black or fluorescent, you will find among all these references the keys to a personalized communication.
Can be used in offset or digital printing.

CROSS BRIGHT

REBECCA Cross

Une polyvalence sans faille.

Cross est le papier offset non-couché, idéal pour l'impression tous formats. Réputé pour son épaisseur exceptionnelle ainsi que sa main élevée, sa blancheur extrême offre les contrastes nécessaires au meilleur rendu d'impression.

Grâce à sa rigidité maximale, sa parfaite régularité de volume et sa très bonne stabilité dimensionnelle, il vous assure d'excellentes caractéristiques d'imprimabilité et de machinabilité.

Ce papier est garanti pour post-impression personnalisée laser et jet d'encre.

Cross existe dans un très large spectre de grammages, ce qui convient à toutes les applications.

Disponible de 50 à 400 g/m².

Cross se complète également avec les gammes Clairalfa et Smart Print en A4 et A3 de 50 à 350 g/m².

Domaines d'utilisation : têtes de lettre, factures, reçus, formulaires et documents, brochures d'entreprise, prospectus, mailings personnalisés, modes d'emploi, dépliants publicitaires, livres, rapports d'activité, fournitures de bureau, catalogues, cartes de visite.

A seamless versatility.

Cross is the ideal, uncoated white offset paper for printing in all sizes. Renowned for its exceptional formation and its high bulk, its extreme whiteness provides the necessary contrasts for the best printing results.

Thanks to its maximum rigidity, its perfect volume uniformity and its very good dimensional stability, it offers excellent printability and runnability characteristics.

This paper is guaranteed for personalized laser and inkjet post-printing.

Cross is available in a very wide range of substances, making it suitable for all applications.

Available from 50 to 400 gsm

Cross also complements the Clairalfa and Smart Print ranges in A4 and A3 from 50 to 350 gsm.

Areas of end use: letterheads, invoices, receipts, forms and documents, company brochures, leaflets, personalised mailings, instructions for use, advertising leaflets, books, business reports, office supplies, catalogues, business cards.

ROUGHNESS

BRUT BRIGHT

REBECCA Rock

Une rugosité élevée, une main exceptionnelle sont les deux principales caractéristiques marquantes de ce support unique. Brut Bright offre à la fois un toucher brut et une imprimabilité parfaite. Ces deux propriétés, rugosité élevée et imprimabilité, en principe antinomiques, sont obtenues grâce au traitement de surface exclusif développé par Clairefontaine.

Blancheur élevée de 170 CIE pour un contraste d'impression éclatant.

An exceptional touch.

Brut Bright reinvents the surface of offset printing papers. A high roughness and an exceptional bulk are the two main landmark characteristics of this unique medium. Brut Bright offers both a very rough touch and a perfect printability. These two properties, which are in principle opposite, are obtained thanks to the exclusive treatment that Clairefontaine applies to its surface.

High whiteness of 170 CIE for brilliant print contrast.

Available from 80 to 400 gsm.

ROUGHNESS

ROUGH BRIGHT

REBECCA Rock

Voici un papier de caractère !

Rough Bright présente une surface texturée, dont vous aurez plaisir à sentir les fibres.

Sa main élevée et son excellente rigidité en font un support idéal pour vos travaux de création. Extrêmement blanc, il rehausse l'intensité des couleurs imprimées, et rend notre message plus dynamique, plus percutant.

Certes un papier de caractère mais il sait se montrer conciliant.

La surface de Rough a été traitée pour une excellente machinabilité, des impressions contrastées et uniformes ; il est apte à de multiples finitions.

Comme tous les papiers de la gamme, Rough Bright présente une excellente stabilité dimensionnelle, une formation de feuille très fondue.

Disponible de 80 à 400 g/m².

Here's a paper of character!

Rough Bright has a textured surface, the fibres you'll be pleased to feel.

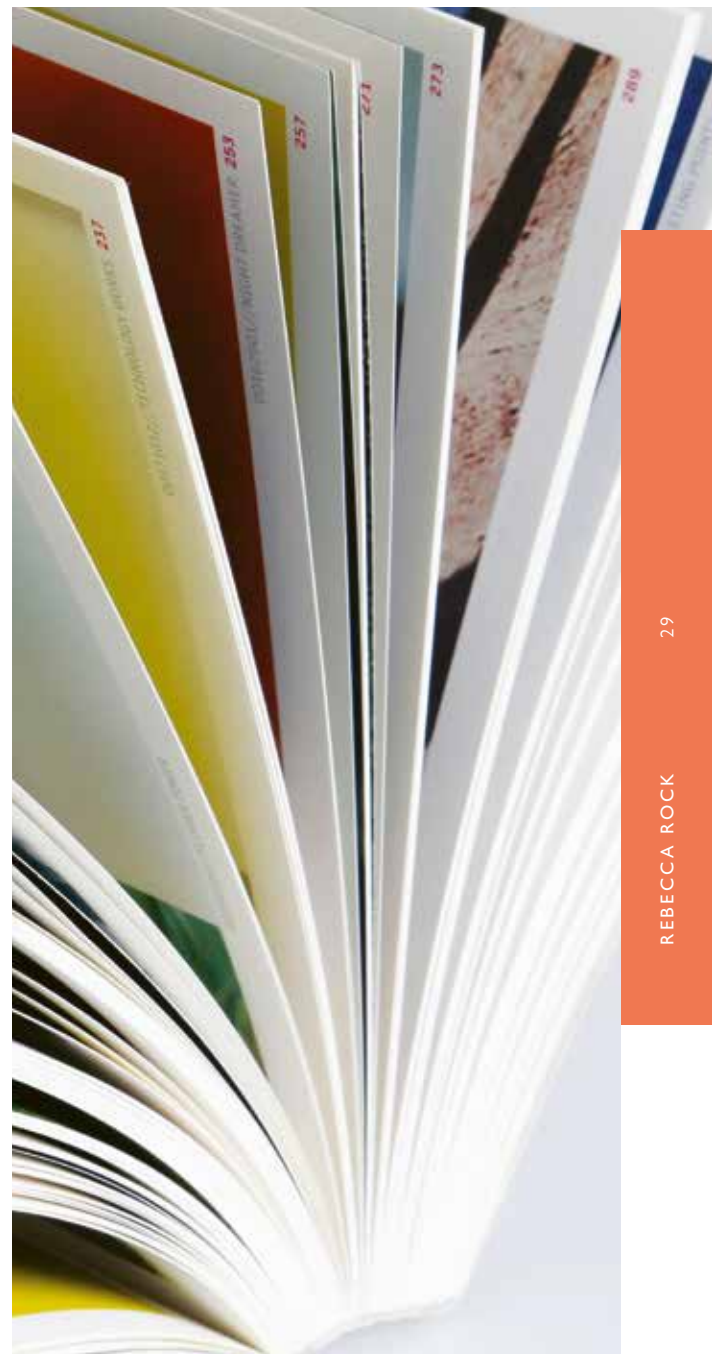

Its high bulk and its excellent stiffness make it an ideal substrate for your creative works. Extremely white, it enhances the intensity of the printed colours, and makes the message more dynamic and impactful.

Certainly, a paper with character, but it knows how to be accommodating.

The surface of Rough has been treated for an excellent runnability, contrasting and uniform prints, and is suitable for multiple finishes.

Like all the papers in the range, Rough Bright has an excellent dimensional stability and a consistent sheet formation.

Available from 80 to 400 gsm.

ROUGHNESS

INDIGO BRIGHT

REBECCA Rock

Indigo Bright offre les mêmes caractéristiques que les autres papiers Rough Bright : blancheur extrême pour des impressions contrastées, main élevée, surface texturée dont vous aurez plaisir à sentir les fibres.

Il offre également une excellente stabilité dimensionnelle et une formation de feuille très fondue.

Sa surface a été spécialement traitée pour des impressions exceptionnelles sur les machines HP Indigo.

Disponible de 80 à 350 g/m².

Indigo Bright offers the same properties as the others papers of the Rough Bright range: extreme whiteness for accurate prints, high bulk, textured surface on which you will feel the fibres. It has a high dimensional stability and a uniform sheet formation.

Its surface has been modified for outstanding prints on HP Indigo machines.

Available from 80 to 350 gsm.

ROUGH ORIGINAL

REBECCA Rock

Rough Original est un papier d'une élégance rare. Sa blancheur naturelle offre un équilibre parfait à vos impressions couleurs. Son toucher texturé vous permet de sentir les fibres et la structure du papier. Sa main élevée et sa formation de feuille très homogène en font le support idéal pour tous vos travaux de création. Sa surface traitée lui confère une excellente machinabilité et un rendu d'impression contrasté et parfaitement uniforme. Rough Original est également décliné en version Smooth et HP Indigo. Disponible de 90 à 400 g/m².

Rough Original is a paper of a rare elegance. Its natural whiteness offers a perfect balance to your colour prints. Its textured touch allows you to feel the fibres and the structure of the paper. Its high bulk and homogenous sheet formation make it the ideal medium for all your creative works. Its treated surface gives it an excellent runnability with a contrasting and perfectly uniform printing result. Rough Original is also available in Smooth and HP Indigo versions. Available from 90 to 400 gsm.

ROUGHNESS

INDIGO ORIGINAL

REBECCA Rock

Indigo Original a été spécialement conçu pour les équipements d'impression numérique à encre liquide HP Indigo. Son traitement de surface spécifique garantit des résultats parfaits tant au niveau qualité d'impression, qu'accrochage de l'encre et absence de pollution sur les machines HP. Sa blancheur équilibrée permet un rendu naturel des couleurs. Il offre les mêmes caractéristiques que les autres papiers Rough et Original. Disponible de 100 à 300 g/m².

Indigo Original has been designed for the digital printing process of Hp indigo machines. Its specific surface treatment guarantees perfect results, either in printing quality or for ink adhesion and blanket cleanliness on HP machines. Its natural whiteness allows a natural rendition of your coloured prints. Available from 100 to 300 gsm.

BRUT WHITE

REBECCA Rock

Brut White, c'est avant tout l'association surprenante d'un toucher rugueux, immédiatement identifiable et d'un traitement de surface spécifique, conçu par Clairefontaine, pour une reproduction fidèle des images et un rendu d'impression précis et constant. Avec une blancheur de 147 CIE et une main de 1.45, Brut White est le papier idéal pour des brochures ou produits de communication de caractère.

Disponible de 90 à 300 g/m².

Brut White is above all the surprising combination of a rough, immediately identifiable feel and a specific surface treatment, designed by Clairefontaine, for a faithful reproduction of images and a precise and consistent print result. With a whiteness of 147 CIE and a hand of 1.5, Brut White is the ideal paper for brochures or communication products with character.

Available from 90 to 300 gsm.

BRUT NATURAL

REBECCA Rock

A la recherche d'un papier authentique, à la personnalité affirmée ? Et si vous optiez pour Brut Natural ? Outre les caractéristiques techniques de sa famille, rugosité forte, main élevée, surface pigmentée pour un rendu d'impression de qualité, Brut Natural possède surtout, une teinte chaude et vive, obtenue sans agent fluorescent. Cette singularité lui confère un charme discret aux notes variées, pour s'adapter à toutes les applications, revues, catalogues, beaux livres...
A explorer sans retenue !
Disponible de 90 à 300 g/m².

Looking for an authentic paper with a strong personality? Why not choose Brut Natural? In addition to the technical characteristics of its family, high roughness, high hand, pigmented surface for a quality printing result, Brut Natural has above all, a warm and vivid tint, obtained without fluorescent agents. This singularity gives it a discreet charm with varied notes, to adapt to all applications, magazines, catalogues, fine books... To be explored without restraint!
Available from 90 to 300 gsm.

ROUGHNESS

ROUGH NATURAL

REBECCA Rock

Le support nature par excellence.
Rough Natural, c'est en premier lieu une teinte chaude et subtile. Produit sans agent fluorescent, Rough Natural est un support idéal pour restituer l'équilibre des couleurs et garantir une balance chromatique parfaite.
Sa surface régulière, sa formation de feuille parfaite et sa rigidité élevée vous assurent une excellente aptitude à la transformation.
Vos documents seront agréables à lire et à tenir en main.
Rough Natural est compatible avec les techniques d'impression offset, jet d'encre et laser.
Disponible de 80 à 400 g/m².

The ultimate, natural medium Rough Natural is first and foremost a warm and subtle shade. Produced without bleaching agents (OBA), Rough Natural is an ideal substrate to guarantee a perfect chromatic balance.
Its smooth surface, perfect sheet formation and high rigidity ensure an excellent processability.
Your documents will be pleasant to read and hold.
Rough Natural is compatible with offset, inkjet and laser printing techniques.
Available from 80 to 400 gsm.

TOUCH NATURAL WHITE

REBECCA Bulk

Jouez la carte de la différence avec Touch Natural White, dont la blancheur de 120 CIE est parfaite pour promouvoir vos créations et véhiculer une image chaleureuse. Ce papier, non couché, au toucher authentique et au bouffant de 1.5, saura transmettre les valeurs de simplicité et de sobriété, recherchées actuellement. De plus, Touch Natural White dispose, en surface, d'une enduction qui améliore considérablement le rendu d'impression et lui permet d'être imprimé aussi bien en inkjet, laser et offset.

Set yourself apart with Touch Natural White, whose 120 CIE whiteness is perfect for promoting your creations and giving a warm image. This uncoated paper, with an authentic feel and a bulk of 1.5, will convey the values of simplicity and sobriety currently favoured. In addition, Touch Natural White has a surface coating which considerably improves the print result and allows it to be used for both inkjet, laser, and offset production.

CLAIRBOOK NATURAL WHITE

REBECCA Bulk

Un papier adapté à toutes les technologies d'impression. Clairbook Natural White conjugue un état de surface, un épaisseur et une opacité hors-pair. Les atouts de ce papier sont tels que les auteurs ont la possibilité d'éditer et de rééditer leurs ouvrages, sans restriction du nombre de tirages, en jet d'encre rapide, laser et offset.

Disponible en main de 1.8 et 2.0, dans différents grammages, Clairbook Natural White s'adapte à la fabrication de tous les livres quelle que soit l'épaisseur de leur dos. Il est aussi disponible du format pour presse numérique jusqu'aux bobines pour rotative offset.

A paper suitable for all printing technologies.

Clairbook Natural White combines outstanding surface finish, smoothness, and opacity. The advantages of this paper are such that authors can edit and republish their works, without restriction on the number of prints, in inkjet, laser and offset. Available in 1.8 and 2.0 in different weights, Clairbook Natural White is suitable for the manufacture of all books regardless of their back thickness. It is also available from digital press sizes to web offset reels.

CLAIRBOOK IVORY

REBECCA Bulk

La gamme Clairbook est également proposée dans une élégante teinte ivoire. Offrant les mêmes propriétés techniques et la polyvalence que Clairbook Natural White, vous pourrez l'appliquer en procédé d'impression jet d'encre, laser, offset. Il saura ainsi répondre à toutes les quantités de tirages.

The Clairbook range is also available with an elegant ivory shade. As it offers same properties as Clairbook Natural White, you may use it on inkjet, laser or offset printing machines. It will thus meet with all printing run sizes.

SILK BRIGHT

REBECCA Satin

Les atouts du non-couché et du couché réunis pour un papier d'exception.

Silk Bright offre l'élégance d'un papier naturel avec un toucher soyeux exclusif et une surface agréable et sensuelle évoquant la soie.

Le rendu d'impression et la brillance d'encre égalent ceux d'un papier couché, avec en particulier une excellente reproduction de la couleur.

Ultra blanc (167 CIE), et avec un épaisseur extrêmement homogène il garantit une fidélité des détails et un haut contraste. Ce papier a pris le meilleur des deux mondes, Silk Bright se prête bien au gaufrage, au rainage et à l'estampage.

Disponible de 90 à 350 g/m².

De même satinage et de même blancheur, nous proposons également la gamme DCP en formats A4, A3, 45 x 32 et 45 x 64 de 80 à 400 g/m² adaptée aux copieurs couleurs, transfert thermique et imprimantes laser couleur.

Domaines d'utilisation : rapports d'activité, brochures et publicités de haute qualité, cartes de visite, cartes de compléments.

The advantages of an uncoated and a coated paper combined for an exceptional paper.

Silk Bright offers the elegance of a natural paper with an exclusive silky touch and a pleasant and sensual surface reminiscent of silk.

The print quality and the ink brilliance match the ones of a coated paper, with a particularly excellent colour reproduction.

Ultra-white (167 CIE) with an extremely homogenous formation, it guarantees precision of details and a high contrast. This paper has taken the best of both worlds, Silk Bright lends itself well to embossing, scoring and stamping. Available from 90 to 350 gsm.

With the same satin finish and whiteness, we also offer the DCP range in A4, A3, 45 x 32 and 46 x 64 sizes from 80 to 400 gsm suitable for colour copiers, thermal transfer and colour laser printers.

Areas of use: business reports, high quality brochures and advertising, business cards, compliment cards.

SUBLIM BRIGHT

REBECCA Sublim

Pour des catalogues illustrés ou des beaux livres, le réflexe habituel des graphistes est de choisir des papiers couchés. Les papiers offset non-couchés étaient souvent réservés à des publications ayant un caractère naturel ou traditionnel. Avec Sublim Bright s'ouvre une nouvelle voie pour l'industrie graphique. Grâce à la technologie Clairtech, cette génération de papier de classe supérieure redéfinit entièrement l'impression polychrome sur papier nature, offrant une reproduction parfaite des images. Une consommation d'encre minimale et d'excellentes aptitudes en machine, avec des temps de séchage courts, offrent les meilleures conditions pour un façonnage rapide et augmentent donc la productivité. Sublim est parfait pour les impressions multiples à fort taux d'encrage, ainsi que pour des finitions variées (gaufnage, dorure, embossage, vernis, pelliculage...).

Il offre une aptitude excellente au rainage et au pliage.

Domaines d'utilisation : rapports d'activité, livres d'art, brochures et publicité de haute qualité

Disponible de 80 à 400 g/m².

For illustrated catalogues or beautiful books, graphic designers would usually choose coated papers. Offset or natural papers were often reserved for publications with a natural or traditional character.

With Sublim Bright, a new way in the graphic industry gets open. Thanks to Clairtech technology, this generation of premium paper completely redefines polychrome printing on uncoated paper, offering perfect image reproduction on a paper with a natural feel.

A minimal ink consumption and excellent printing capabilities, together with short drying times, offer the best conditions for a fast finishing and thus increased productivity.

Sublim is perfect for multiple prints with high ink levels, as well as for a variety of finishes (embossing, gilding, varnishing, lamination...).

It offers excellent creasing and folding capabilities.

Among the many other application: business reports, art books, brochures and high-quality advertising.

Available from 80 to 400 gsm.

LIFE SUBLIM

REBECCA Sublim

La technologie Clairtech au service d'un offset Premium 100% recyclé.

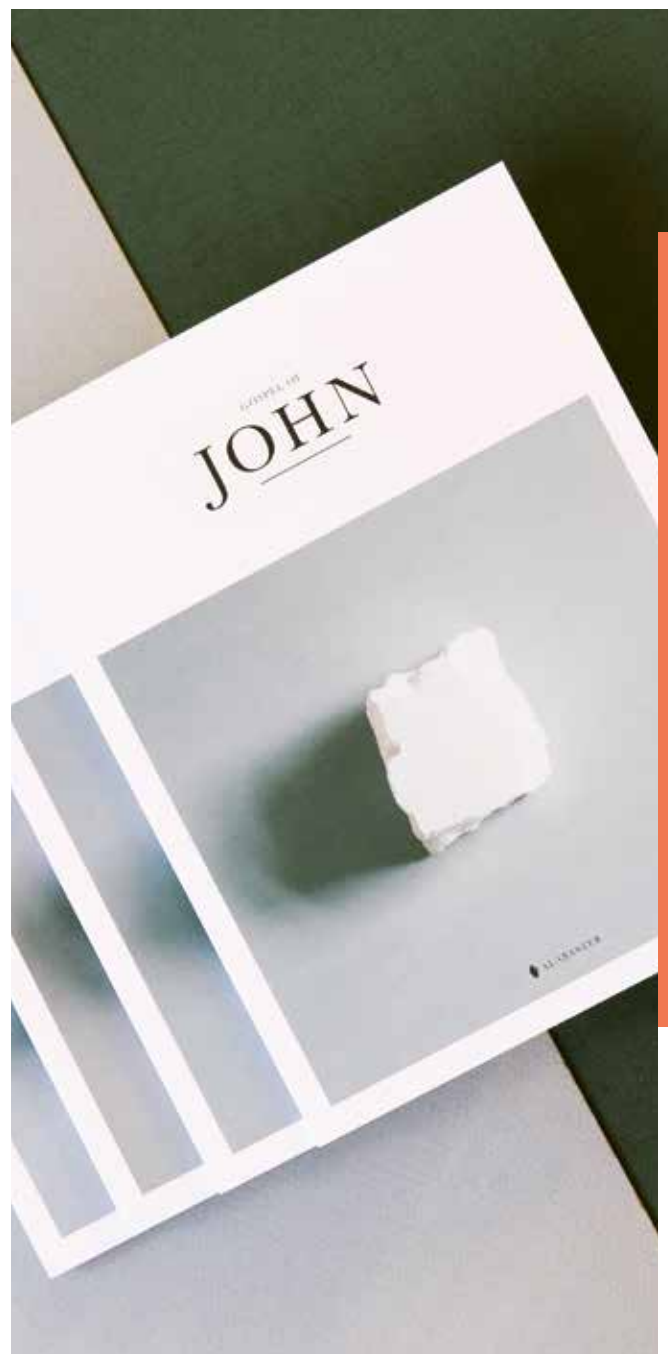

Garantir à la fois des rendus d'impressions proches d'un papier couché et le toucher nature d'un papier de caractère sur un support issu de 100% de fibres de récupération, tel est le pari relevé avec brio par Clairefontaine !

Life Sublim offre une infinité de perspectives nouvelles à l'industrie graphique grâce à ce support hors du commun. Disponible de 80 à 300 g/m².

Clairtech technology at the service and forefront of offset printing Premium 100% recycled.

Clairefontaine has successfully met the challenge of guaranteeing printing results close to those of a coated paper and the natural feel of a character paper made from 100% recycled fibres!

Life Sublim offers an infinite number of new perspectives to the graphics industry thanks to this unusual material. Available from 80 to 300 gsm.

Listen to the silence

On the foot of Mount Ogura,
you will encounter the silence of Niou-in Temple.
True silence is not soundless.
Through the maple and cherry blossom lined approach,
awaits the forgotten sounds of silence.
The rustling of trees, chirping birds and flowing water.
Immerse yourself in the tranquil flow of time at Niou-in
and adore the timeless sounds of nature.

EVERPRINT PREMIUM WHITE

REBECCA Life

Le papier graphique recyclé par excellence !

Everprint Premium White fait partie de la gamme des papiers recyclés. Spécialement conçu pour les applications offset et preprint, ce papier est fabriqué à partir de 100% de fibres de récupération sans compromis sur la qualité. En effet, les matières premières entrant dans sa composition sont rigoureusement sélectionnées afin de garantir un très haut niveau de blancheur, une stabilité dimensionnelle irréprochable et des rendus d'impression saisissants !

Son procédé de fabrication a été pensé pour limiter autant que possible son impact sur l'environnement par l'absence de blanchiment au chlore et une génération de déchets très limitée au cours du procédé.

Everprint Premium White, c'est le choix de la fiabilité avec la signature recyclée en plus !

Disponible de 70 à 400 g/m².

The choicest recycled paper!

Everprint Premium White is made from 100% recycled fibres without compromising on quality. Raw materials are selected to offer the best whiteness, dimensional stability and outstanding printing quality in offset or preprint.

Its production process greatly limits environmental impact by using biomass energy, by avoiding chlorinated fibre bleaching and by generating little waste.

With Everprint Premium White you choose reliability with a recycled signature.

Available from 70 to 400 gsm.

Afin de garantir l'épaisseur et la rugosité de ce papier, le grammage peut être ajusté en conséquence. Cette dernière valeur doit donc être considérée comme indicative.
 In order to guarantee the thickness and the roughness of this paper, the grammage may be adjusted accordingly. This latter value should thus be considered as indicative.

ROUGHNESS

EVERPRINT WHITE

REBECCA Life

Le papier recyclé qui s'affiche.
Everprint White partage avec Everprint Premium White les mêmes qualités d'imprimabilité et le même procédé de fabrication à impact environnemental très réduit. Sa blancheur moins élevée montre clairement son origine. Everprint White est le choix d'un papier visiblement recyclé à partir de 100% de fibres récupération. Disponible de 70 à 350 g/m².

The recycled paper that displays itself.
Everprint White shares with Everprint Premium White the same printability and the same manufacturing process with a very low environmental impact. Its lower whiteness clearly shows its origin. Everprint White is the choice of a visibly recycled paper from 100% recycled fibres. Available from 70 to 350 gsm.

EVERPRINT LIGHT COATED

REBECCA Life

Pour des impressions éco-responsables de haute qualité Everprint Light Coated est un papier fabriqué avec des fibres de cellulose 100% recyclées. Son état de surface, à la fois couché et satiné, garantit des résultats d'impression exceptionnels en offset. Sa blancheur naturelle, permet un champ élargi de restitution des couleurs et des nuances. Son satinage léger, lui confère un toucher très soyeux et assure un grand confort de lecture. Certifié FSC recyclé et fabriqué en France, Everprint Light Coated est disponible du 80 au 300 g/m² pour s'adapter à toutes les applications : plaquettes commerciales ou institutionnelles, rapports annuels, journaux, revues, catalogues, beaux livres, calendriers...

For high quality eco-responsible prints Everprint Light Coated is a paper made with 100% recycled, cellulose fibres. Its surface finish, both coated and satin-finish, guarantees exceptional offset printing results. Its natural whiteness, 95 CIE, allows a wider range of colours and shades to be reproduced. Its light satin finish gives it a very silky touch and ensures great visual comfort. Certified FSC recycled and manufactured in France, Everprint Light Coated is the signature of high quality eco-responsible prints. Everprint Light Coated is available from 80 to 300 gsm to suit all applications: commercial or institutional brochures, annual reports, newspapers, magazines, catalogues, beautiful books, calendars...

TRADITION WHITE

REBECCA Studio

L'élégance intemporelle du coton, entre luxe et raffinement. Tradition White est un papier fabriqué à partir de fibres naturelles de coton et de cellulose qui lui confèrent une main importante et une opacité élevée. Parfait pour les impressions de haute qualité, il garantit une excellente netteté des couleurs et une transformation impeccable. Tradition White offre une texture luxueuse, présente une durabilité exceptionnelle et est particulièrement bien adapté au gaufrage et marquage à chaud. Son toucher doux et sa blancheur naturelle en font le support idéal pour les livres, magazines et autres publications de prestige.

Tradition White, pour une histoire qui s'écrit tout en douceur.

The timeless elegance of cotton, a blend of luxury and refinement.

Tradition White is a paper made from natural cotton and cellulose fibres, ensuring a high bulk and good opacity. Perfect for top-quality prints, it guarantees excellent colour sharpness and an impeccable processing. Tradition White offers a luxurious texture, exceptional durability and is particularly well suited to embossing and hot stamping. Its soft feel and natural whiteness make it ideal for books, magazines, and other prestigious publications.

Tradition White, for a story that unfolds with a gentle touch.

VALORISE WHITE

REBECCA Studio

Le papier recyclé pour des histoires renouvelées. Valorise White est un papier non-couché qui laisse apparaître des fragments de végétaux. Il incarne une fusion entre exploration sensorielle et durabilité, où chaque fragment de végétaux apparents raconte une histoire de renouveau. Adapté aux techniques d'impression courantes et aux procédés de transformation, il offre une toile pour l'expression artistique tout en témoignant d'un engagement envers un monde plus vert et plus inspirant.

Green paper for a renewed story.
Valorise White is an uncoated, recycled paper that reveals plant fragments. It embodies a fusion of sensory exploration and sustainability, where each exposed flake of plant material tells a story of renewal. Suitable for common printing techniques and converting processes, it provides a canvas for artistic expression while demonstrating a commitment to a greener, more inspiring world.

VALORISE IVORY

REBECCA Studio

La force de la nature capturée dans un papier. Valorise Ivory est une invitation à explorer un monde d'authenticité et d'engagement écologique. Ce papier non-couché, partiellement élaboré à partir de matériau organique, raconte une histoire de résilience et de renaissance, imprégnée des richesses de la nature. Esthétique, Valorise Ivory convient parfaitement aux couvertures de livres dans sa version 350g/m², et reste idéalement adapté aux projets d'édition, invitations ou menus dans ses versions plus légères.

The power of nature captured on paper. Valorise Ivory is an invitation to explore a world of authenticity and ecological commitment. This uncoated paper, partly made from organic material, tells a story of resilience and rebirth, imbued with the riches of nature. Aesthetically pleasing, Valorise Ivory is perfectly suited to book covers in its 350 gsm version, and remains ideally well adapted to publishing projects, invitations or menus in its lighter versions.

REBECCA Eco Kraft

Les papiers naturels pour planter des phrases.
Rebecca Eco Kraft se sont des supports recyclés constitués de 50% de fibres recyclées et de 50% de fibres vierges, certifiées FSC®. Conçue pour des impressions offset, cette gamme de papiers est aussi apte à l'impression numérique HP Indigo. 100% recyclables, les papiers Rebecca Eco Kraft sont des concentrés de nature, idéaux pour des marques éco-responsables qui souhaitent se différencier et intensifier leur démarche dans l'économie circulaire. Le registre des teintes se module autour de trois références, Bouleau, Ecrû et Muscat.
Disponible en 120 et 300 g/m².

Natural papers for planting sentences.
Rebecca Eco Kraft is a range of recycled papers made from 50% recycled fibres and 50% virgin fibres, FSC® certified. Designed for offset printing, this range of papers is also suitable for HP Indigo digital printing. 100% recyclable, Rebecca Eco Kraft papers are concentrates of nature, ideal for eco-responsible brands wishing to differentiate themselves and intensify their approach in the circular economy. The range of colours is based on three references, Bouleau, Ecrû and Muscat.
Available in 120 and 300 gsm.

C-OPAK / SMART PRINT

REBECCA Thin

C-Opak

Spécialement conçu pour la fabrication de livres à forte pagination. Il présente une opacité renforcée, exceptionnelle pour son épaisseur. Sa teinte chaude, améliore le confort de lecture et son toucher très soyeux rend la préhension et le mouvement des pages très agréable. Innovant, il s'imprime aussi bien sur presse jet d'encre haute vitesse qu'en rotative ou presse offset.

Smart Print Papers

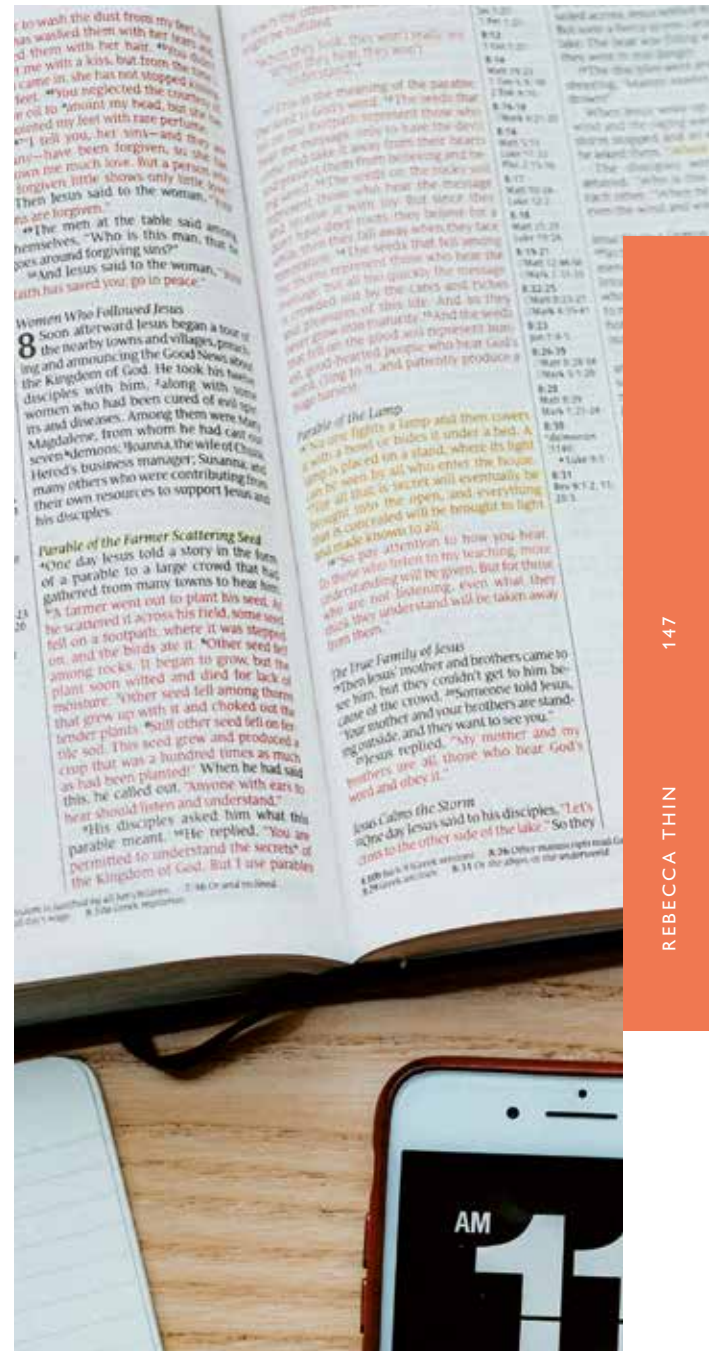

Avec une blancheur élevée de 168 CIE ainsi qu'une bonne opacité, cette gamme de papier se décline en papier offset & preprint ainsi qu'en ramettes pour la bureautique. Garantie pour un parfait passage en impression laser.

C-Opak

Specially designed to produce high-pagination books. It has a reinforced opacity, exceptional for its thickness. Its warm colour improves reading comfort, and its very silky touch makes it very pleasant to hold and move the pages. Innovative, it can be printed on high-speed inkjet presses as well as on rotary or offset presses.

Smart Print Papers

With a high whiteness of 168 CIE as well as a good opacity, this range of paper is available in offset & preprint papers as well as in reams for office use. Guaranteed to perfectly pass through laser printing.

ICY ORIGINAL

REBECCA High Speed Inkjet

Icy Original est le choix idéal pour les travaux à forte couverture d'encre, sur une surface brillante. Un séchage d'encre très rapide, une densité colorimétrique élevée et un rendu d'impression parfait en font le support adapté à la réalisation de marketing direct, de littérature technique ou scolaire. Icy Original est proposé dans une blancheur de 151 CIE, optimale pour un rendu chromatique équilibré.

Icy Original is the perfect choice for jobs with high ink coverage on a glossy surface. Very fast ink drying, high colour density and perfect print results make it ideal for direct marketing as well as for technical and school literature. Icy Original is available in a whiteness of 151 CIE, optimum for balanced colour rendition.

CLAIRJET BRIGHT

REBECCA High Speed Inkjet

Clairjet Bright est le papier polyvalent développé pour l'impression jet d'encre. Ce papier de haute blancheur, 170 CIE, est compatible avec les encres dyes et pigmentaires. Clairjet Bright présente une stabilité dimensionnelle élevée, une absence de déformation après dépose de l'encre et un séchage rapide. Clairjet Bright convient parfaitement à l'impression de documents transactionnels ou promotionnels.

Clairjet Bright is a multifunctional paper developed for Inkjet printing. This high whiteness paper, 170 CIE, is compatible with dye and pigment inks. Clairjet Bright offers high dimensional stability, no deformation after ink application and quick drying time. Clairjet Bright is ideal for printing transactional or promotional documents.

TROPHÉE NÉON

REBECCA Color

Trophée Néon

Une résistance à la lumière éblouissante !

Jaune stimulant, Orange exubérant, Vert revigorant, Rose tonifiant...

Trophée Néon, c'est avant tout la symbiose parfaite entre des couleurs énergisantes et une solidité à la lumière optimale. Les teintes Néon gardent fraîcheur et éclat au fil des semaines, afin de répondre à votre volonté de marquer les esprits, d'opter pour une communication percutante ou d'organiser un rangement haut en couleur.

Trophée Néon, 4 papiers lumineux à mettre au centre de vos attentions.

Trophée Neon

Dazzling light resistance!

Stimulating Yellow, exuberant Orange, invigorating Green, refreshing Pink...

Trophée Neon is above all the perfect symbiosis between energising colours and optimal light fastness. Neon colours remain fresh and bright throughout the weeks, to meet your desire to make a lasting impression, to opt for a striking communication or to organise a colourful storage.

Trophée Neon, 4 luminous papers to put at the centre of your attention.

ROUGHNESS

BENGALI

REBECCA Color

La couleur est un vecteur unique de communication. Utilisez la pour créer, classer, partager une émotion.

Vous pouvez désormais le faire avec Bengali, une gamme créative produite à partir de 100% de fibres de récupération. Ses couleurs vives, son aptitude à l'impression laser et offset en font le support idéal d'une communication verte, ou jaune, ou fuchsia ou orange...

Le choix est vaste parmi ses 17 couleurs et 4 grammages.

Colour is a unique vector of communication. Use it to create, classify, share an emotion.

You can do it from now on with Bengali, a creative range produced from 100% recovered fibres. Its bright colours, its ability to laser and offset printing make it the ideal medium for a green, or yellow, or fuchsia or orange coloured communication....

The choice is wide among its 17 shades and 4 substances.

SPIRIT of PAPER

Clairefontaine**GraphicalPaper**

Parce qu'il est un acteur historique du marché.
Parce qu'il maîtrise de A à Z toutes les étapes de production, transformation et livraison.

Parce qu'il dispose d'une capacité d'invention technique pour répondre rapidement à toutes les demandes, Clairefontaine propose des gammes de papiers pour la chaîne graphique.

Clairefontaine, c'est d'abord une marque emblématique et son logo – la Verseuse Rebecca. C'est aussi un siècle et demi d'une connaissance filiale et intime du papier qui a forgé des produits devenus des classiques. Qu'il s'agisse du cahier d'écolier au toucher iconique ou de la rame Clairalfa qui accompagne avec exigence notre environnement de bureau.

Clairefontaine c'est tout cela : un savoir-faire français, une histoire, une audace.

Mieux. Clairefontaine c'est une certaine idée, un certain esprit du papier. Ce Spirit of Paper prend pour nom Rebecca. Qu'elles soient Rock, Sublim ou Life, les gammes Rebecca affirment toute l'autorité Clairefontaine dans la maîtrise des papiers offset haut de gamme.

Because we are a historic leading player in the market.
Because we master all the stages of production, converting and delivery from A to Z.
Because we have the technical invention capacity to meet quickly all requests,
Clairefontaine offers several ranges of papers for the graphic chain.

Clairefontaine is first of all an emblematic brand with its logo Rebecca. Our intimate knowledge of paper of a century and a half has forged products which have become best sellers.

Whether it is the exercise book with its iconic touch or the Clairalfa ream which accompanies our office environment, Clairefontaine is all this : French know-how, a history and audaciousness!

Even more. Clairefontaine is a certain idea, a certain spirit of paper. This Spirit of Paper has taken the name Rebecca. Whether they are named Rock, Sublim or Life, the Rebecca ranges assert all the Clairefontaine authority in the mastery of top-of-the-range offset papers.
