

GenYous® Black Intense

Papers for **packaging**

Description

GenYous® Black Intense enhances the GenYous® range with a deep black, solution-dyed tint for remarkable intensity and uniformity. This uncoated paper combines an exceptionally smooth surface with excellent printability in both digital (dry / liquid toner) and offset printing. Made from 100 % ECF cellulose fibres, it is carbon pigment-free, lightfast, bleachresistant and migration-free. Its calibrated hand, opacity and velvety feel make it a top-of-the-range solution for your demanding creative projects. GenYous® Black Intense: a bold colour for eye-catching creations.
