

Silk Natural

Rebecca **Rock**

Description

Silk Natural offers the elegance of a natural paper with an even softer silky touch and a smooth, velvety surface. Its soft, natural tone, achieved without fluorescent whitening agents, provides a harmonious and natural rendering of colour prints, particularly enhancing delicate images and subtle visuals. Prints quality and ink brilliance are comparable to those of a coated paper, while preserving the look and feel of a natural paper. It's excellent formation and very good stiffness ensure perfect runnability and faithful reproduction of fine details.

Available from 100g/m² to 300g/m²
