

Clairjet 300 Natural

Inkjet Matt

Description

Clairjet 300 Natural is the premier offset paper for pre- and post-printing, capable of meeting a wide range of format requirements. Renowned for its exceptional sheet formation, its wide range of weights from 60 to 300 g/m², and its 74 CIE whiteness, it offers excellent printing and processing characteristics. Moreover, since this paper is suitable for all subsequent printing stages, your clients can customize it on laser or inkjet printers.

Applications: letterheads, invoices, receipts, forms and documents, corporate brochures, booklets, personalized mailings, user manuals, advertising leaflets, etc.

Applications

Transactional / Administrative documentation / Mailing
