

# Everjet 400 Performance

Inkjet Matt

## Description

Everjet 400 Performance is made entirely from recycled fibres. This versatile paper, with a natural whiteness of 120 CIE, is particularly suited to transactional printing and promotional documents. The slitting quality of this paper is excellent, and its precise dimensional accuracy means that it runs reliably through the machines for maximum productivity. Ideal for black and colour prints, for jobs with intermediate ink coverage.

## Applications

Transactional / Publishing / Direct marketing

## Technical specifications

Substance	gsm	70	80	90	100	120	160	200	300	NF EN ISO 536
