

Everjet 300 Plus

Inkjet **Matt**

Description

Everjet 300 Plus is made entirely from recycled fibres. This versatile paper, with a natural whiteness of 95 CIE, is particularly suited to transactional printing and administrative documentation, ideal for black text only. The slitting quality of this paper is excellent, and its precise dimensional accuracy means that it runs reliably through the machines for maximum productivity.

Applications

Transactional / Administrative documentation / Mailing
